## Profile

Experienced Full Stack Developer with 3+ years in C#, .NET Core, Blazor, and SQL. Proven expertise in building scalable applications, optimizing performance, and debugging complex systems. Passionate about collaborating with teams to deliver high-quality software solutions.

## Skills

Programming	· C# · Dot Net Core · Dot Net Framework
Database & ORM	· SQL Server · EF Core · Entity Framework · Dapper
Web Tech	· HTML · CSS · Blazor · Bootstrap · JavaScript
Standards	· SOLID Principles · Design Patterns · SDLC · Agile
Software Tools	· Visual Studio · Visual Studio Code · Git · FileZilla FTP

## Experience

### HTC Global Service

Chennai, India

#### Associate Engineer

Feb. 2024 - Now

- Developed and enhanced .NET Core applications, implementing new features that improved system reliability and user experience.
- Collaborated with cross-functional teams, including designers, database engineers, UI developers, and QA testers, to ensure seamless integration and successful completion of project tasks, improving overall development efficiency.
- Applied Clean Architecture principles and optimized database interactions using Dapper, ensuring scalable, maintainable, and high-performance applications.

### Tracque Inc

Chennai, India

#### System Analyst

Aug. 2022 - Feb 2024

- Engineered and implemented full-stack solutions with Blazor WebAssembly, .NET Core 6, and EF Core, ensuring high-performance and scalable applications.
- Utilized the Repository Pattern with EF Core to enhance code maintainability, streamline data access, and improve backend efficiency.
- Coordinated with cross-functional teams in daily stand-ups to track project progress and deployed updates via FileZilla, ensuring seamless server integration with minimal downtime.

### Syncfusion

Chennai, India

#### Software Engineer

Nov. 2017 - Dec 2018

- Developed and maintained Windows Installers using WiX Toolset for configuring files transfers and optimizing installation workflows. Integrated Final Builder to automate the compilation process, ensuring efficient packaging and seamless deployment.
- Created new automation workflows and optimized existing ones in Final Builder, reducing compilation time by 40% and improving overall build efficiency by 30%.
- Enhanced and maintained the Build Portal (built with .NET Framework MVC and Entity Framework) by implementing updates and fixing bugs, improving scheduled builds and build details management.

## Projects

#### Portfolio App ([Live](#))

Technologies & Tools: CSS, HTML, Bootstrap, Blazor

- Utilized active coding skills to deliver a user-friendly and visually appealing platform for showcasing my talents.

## Education

#### SNS College of Technology

Coimbatore, India

B.E - CSE - CGPA: 7.3

June 2013 – May 2017

#### Saratha Higher Secondary School

Gobichettipalayam, India

HSC - Percentage: 87%

June 2012 - April 2013

SSLC - Percentage: 94%

June 2010 – April 2011
